**INNOVATIVE ELECTRICAL  
SOLUTIONS AND SERVICES  
TAILORED FOR YOUR BUSINESS**

# SPECIALISED INDUSTRIES

## INDUSTRY

Electrical Engineering Equipment can offer products and solutions for light industrial through to heavy industries and steel making, from a broad yet specialised product range. Including amongst others Conductor Bars, Cable Reels, Energy Chains and Festoon systems for moving power and control, Grounding, Bonding and Surge Protection to protect assets.

## MINING

Electrical Engineering Equipment have a range of specialty products and solutions for mining industry applications. CMP hazardous area Glands and Cleats as well as Kiepe monitoring devices for conveyor systems are available. For moving power above or underground; Festoon Systems, Cable Reels and Energy Chains can be supplied.

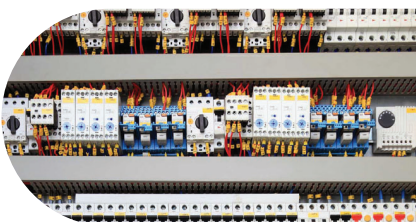

## PORTS AND MARITIME

Electrical Engineering Equipment have a range of products and solutions for ports and maritime including Festoon Systems, Cable Reels and Energy Chains for moving power and control. Gessmann products can be supplied where consoles and joystick control are required and CMP products for hazardous area rated glands and cleats for cable management.

## FOOD & BEVERAGE

Food and Beverage plants have a lot of moving parts using energy chains, guiding cables and hoses. Electrical Engineering Equipment have specialised products and services which cater to this industry including a range of sensing, monitoring and control systems, safety audits, process & factory automation.

## SWITCHBOARD MANUFACTURING

Electrical Engineering Equipment can offer the nVent Erico range for switchboard builders including Surge Diversion, Surge Filtering, Distribution Blocks, Flexible Braids and Flexible Busbar. Wire and cable marking is available for a variety of media including wire numbers, cable numbers, switch legends & name plates.

## RAIL

We are the Southern NSW distributor for nVent Erico and can supply Cadweld Exothermic Welded Connections, Grounding, Bonding and Surge Protection solutions. Certified Cadweld training is offered as required by Sydney Trains and other rail network operators and we can also offer cable management, glands and cleats from CMP Products.

## LOCAL COUNCIL & UTILITIES

Electrical Engineering Equipment are the Southern NSW distributor for nVent Erico and can offer Grounding, Bonding and Surge Protection for protection of critical assets including water utilities and treatment plants through to electrical sub stations and power generation. As well as product supply, we offer Earth Resistance and Resistivity Testing, Surge and Lightning Protection Inspections and UPS Audits and Maintenance.

# OUR PRODUCT RANGE

Electrical Engineering Equipment, providing reliable and high-quality specialised electrical equipment and support services to meet businesses unique needs.

**SURGE PROTECTION**

**LIGHTNING PROTECTION**

**GROUNDING AND BONDING/EARTHING**

**FLEXIBLE BRAIDS AND INSULATORS**

**FESTOON/CATENARY SYSTEMS**

**CONDUCTOR BAR SYSTEMS**

**ENERGY/DRAW CHAINS**

**CABLE REELS & SLIPRINGS**

**SPECIALTY FLEXIBLE CABLES**

**RADIO CONTROL**

**BUFFERS**

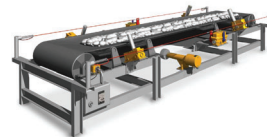

**CABLE MARKING SYSTEMS**

**UPS SYSTEMS**

**POWER FACTOR CORRECTION**

**CONVEYOR MONITORING**

**CABLE GLANDS & CLEATS**

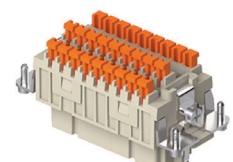

**FRAS HOSE**

**PROCESS & FACTORY AUTOMATION**

**SAFETY RELAYS & E-STOPS**

**PLUGS & SOCKETS**

# TRUSTED SUPPLIERS

We work with trusted global manufacturers and suppliers of quality Electrical Equipment to bring our customers world class products.
